LEADERSHIP & RESEARCH**

(a Zav Foundation initiative)

About Zav Foundation

- Zav, derived from a Sanskrit word “Java” which means the transition from "Dawn to Dusk" or “Dusk to Dawn”.
- Zav is a nation-building initiative that brings together students in need of education and people who can contribute a little time towards teaching them.
- As an NGO, we thrive to bridge the gap between education and individuality

Our Vision

Live-Grow-Change-Create

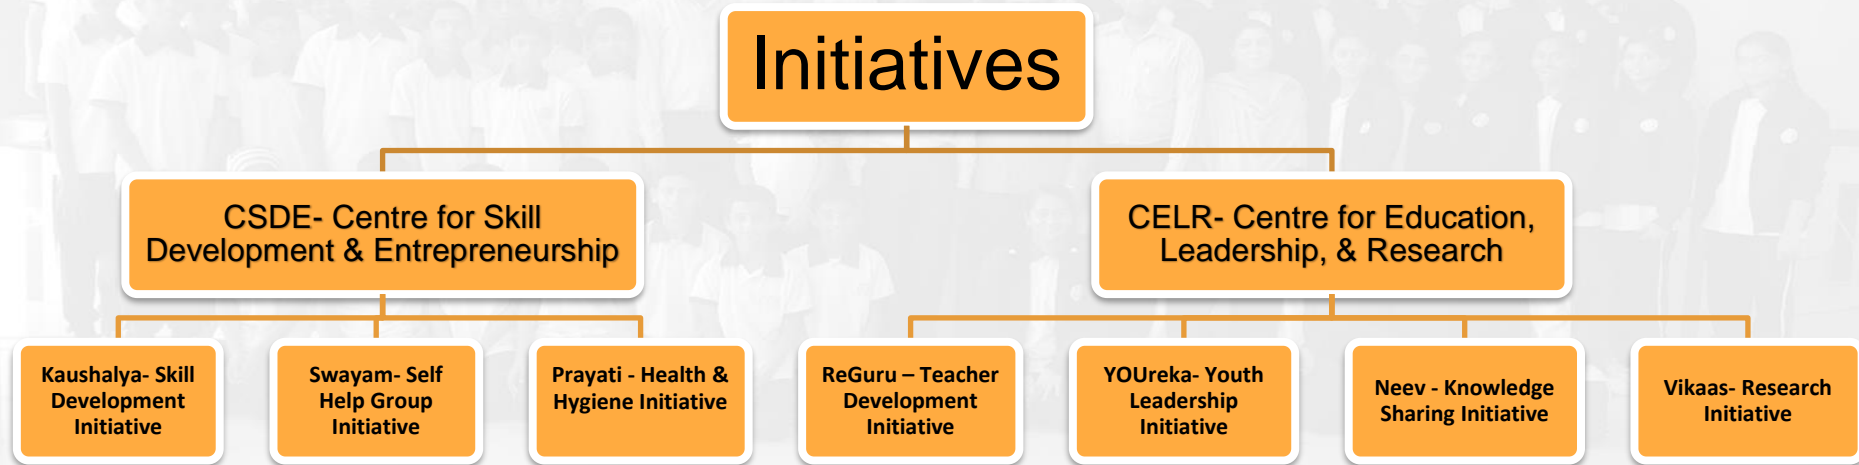

- Zav dreams of a New Society where people live in harmony, where there is total freedom for the complete growth of the individual, where each person accepts the other as they are with the right attitude.
- We visualize a place where people value peace, love, truth, justice and equality through self change and thus social change. A place where coming together and working together we are able to create a new future.

Our Mission

A young and resilient India poised for higher missions and undeterred excellence.

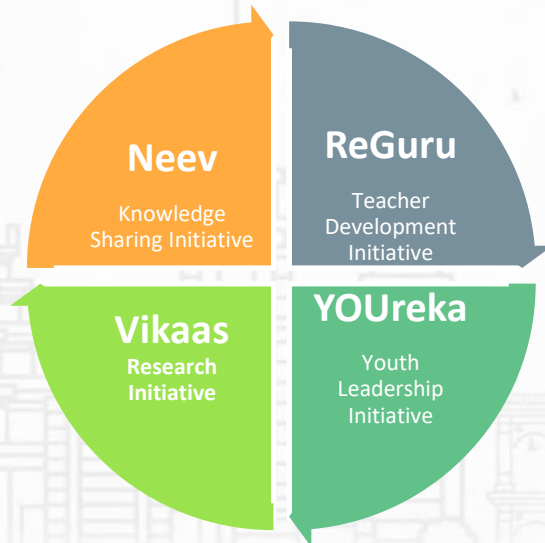

Our mission is to create an India full of young people who are liberated from weaknesses that are personal and inter-personal; young people who are geared up to take on the future with skills that are honed in a way that there is personal change and thus social change.

Initiatives

CELR- Centre for Education, Leadership & Research

The Zav Foundation's initiative “Centre for Education, Leadership & Research” is for sustainable development allows every human being to acquire the knowledge, skills, attitudes, and values necessary to shape a sustainable future. It also requires participatory teaching and learning methods that motivate and empower learners to change their behavior and take action for sustainable development. Education for sustainable development consequently promotes competencies like critical thinking, imagining future scenarios, and making decisions.

ReGuru – Teacher Development Initiative

- Focus on the young professionals who hold the power to pass on skills to the next generation.
- The mentors are trained to teach using effective techniques with and without technologies like projectors and smartboards allowing knowledge to be conveyed to students in a comprehensive manner.

- We grant the opportunity of absorbing attributes of teamwork, esprit de corps, and self-reliance to the students of schools, under graduates and post graduates.
- These techniques are educated through creative methods such as storytelling, group discussions, meditation and experiential learning.
- The performance of the students is observed and facilitated by professionals who further take corrective actions for improvement.
- We have engaged with various rotary clubs across the state such as Little More Love from BMS College and Ramose, a student-run social initiative.
- Under YLP, we focus on assimilating leadership qualities such as self- awareness, confidence, empathy and communication into our army of potent youth.
